## Use WIDA MODEL to:

- ✓ Gather immediate English language proficiency level scores
- ✓ Screen students for identification and placement decisions
- ✓ Monitor student progress over time
- ✓ Inform instructional planning as well as curricular and program planning
- ✓ Support decisions related to exiting students and services
- ✓ Interpret proficiency in terms of Common European Framework of Reference for Languages (CEFR) levels

### How can we use WIDA MODEL to learn more about our students' academic English language proficiency?

I'm a new student at my school and the admissions office needs to know whether I would benefit from English language support services.

I have been receiving English language support services and my school wants to make sure I'm making progress year to year.

My support team is meeting soon and they need more information about my English language development progress.

I'm learning so much English that my teacher wants to see if I'm ready for the next challenge and can exit the EAL programming!
