This report provides information about the student's scores on the Alternate ACCESS for ELLs English language proficiency test. This test is based on the WIDA Alternate English Language Development Standards and is used to measure students' progress in learning English. Scores are reported as Language Proficiency Levels and as Scale Scores.

*Overall score is calculated only when all four domains have been assessed. NA: Not available
**The Listening, Speaking, and Reading domains do not include test items targeting proficiency levels P3 and above; therefore, students cannot demonstrate English proficiency at levels P3 and higher. However, in Writing, students may score up to proficiency level P3.

Student's performance within the Listening and Reading Domains
Each task in the Listening and Reading domains provides students with three opportunities (Cue A, Cue B, & Cue C) to demonstrate what they can do. Cue A provides the initial prompt and question. If the score for Cue A is Incorrect or No Response, Cue B is administered. Cue B simplifies the initial prompt. If the score for Cue B is Incorrect or No Response, Cue C is administered. Cue C includes the simplified prompt and provides the answer to the question. The table below provides the number of correct responses to the Listening and Reading domains and does not report information on tasks that were not administered, incorrect, or to which the student did not respond.

	# of Correct Responses (out of 9)	Less Support → More Support					
		Cue A		Cue B		Cue C
