  You can pages 3 and 4 as a double-sided single sheet.

Describe step by step what the students did. Use the pictures and the numbers to help you add details. Write at least 6 sentences. Be sure to include an introduction and an ending.

You can write on the next page, too.
How to Read the Script

The script includes text that is read aloud during test administration as well as directions for the test administrator.

- **Read aloud the text in bold font.** These are the instructions for the students.
- **Do not read the unbolded text aloud.** These are directions for you, not for the students.
- **When administering the Writing test, you may hold up a Writing Test Booklet and point to the pictures and words while reading the script.**

Below is a sample of the Writing script with these points highlighted.

Read aloud all bold text.

**This page says, “Part C.”**
Scan the room and make sure all students are in the right place.

Look at the sentence at the top. It says, “This picture shows a classroom.”

Look at Picture A. What is happening the picture?
Allow time for students to respond. If necessary, say: **The teacher is giving a pencil to a girl.**

Look back at the big picture. Find the teacher giving a pencil to a girl. **PAUSE.**

What else do you see happening in the picture?
Allow time for students to respond.

Introducing the Sample Item

Explain to your students that they’re about to complete a writing exercise. This exercise is similar to a test they will take in the future. The test will be their opportunity to demonstrate their English skills in writing, and this practice exercise will help them get ready for the test.

When the students are ready and understand what they’re going to do, pass out the test materials. Each student needs a complete copy of the sample test item.

Read the script on the following pages to guide students through the writing task.
This page says, “Pond Animals.”

Scan the room and make sure all students are in the right place.

Look at the sentence at the top. It says, “These students are learning about the animals that live in a pond near their school.”

Look at Picture A. First, the students visited a pond. PAUSE.

Look at Picture B. The students used nets to catch some of the animals living in the pond. PAUSE.

Now look at Picture C. The students observed the animals they found. PAUSE.

Look at Picture D. The students made tally marks to count how many of each animal they found. There were beetles, tadpoles, and snails.

The next two pictures show what the students did when they got back to their classroom.

Look at Picture E. What did the students do next?

Allow time for students to respond. If necessary, say: They started making a graph.

Now look at Picture F. The students hung up their bar graph to share what they learned about pond animals.

Go to the top of the next page.

Scan the room and make sure all students are in the right place.
The directions say, “Describe step by step what the students did. Use the pictures and the numbers to help you add details. Write at least 6 sentences. Be sure to include an introduction and an ending.”

You have about 20 minutes for this part. If you get to the bottom of this page and need more lines to write on, you may turn the page and write on the back. Stop when you get to the stop sign.

Do you have any questions?
Answer questions.

Now begin writing.
Monitor the students. Check to make sure everyone is following directions.
When students finish, remind them to check their work by saying: Be sure to check your writing.
Allow a reasonable amount of time for all students to attempt to write something. Move on to the next part of the test when all students have finished writing or about 20 minutes have passed.
If any students are still working productively after 20 minutes, say: Please finish what you are writing now. PAUSE.
End the testing session by saying:

Please put down your pencils, and I will come around to collect your writing.
