

# Stronger Together

## One conversation at a time

### Instructions for Use

1. Choose a logo for the back of your cards. Use the WIDA logo on page 3 or add your own logo on page 5. Simply click on the image field, and select "Browse" to navigate to the image of your choice.
2. Look at the questions document. Choose a few relevant questions or create your own. Write your questions into page 2 of this template if you are using the WIDA logo or page 4 if you are using your own logo. You can adjust the appearance of your question by right-clicking in the form field and choosing "Text Style" for simple formatting options or "Hyperlink" for more advanced formatting options (for example, changing font size).
3. Print out your question and logo pages double-sided so that your questions are on one side and the logo is on the other side.
4. Cut your printed pages into cards and use them for your next conversation.
